BERLIN, 25th October.
The Imperial Council assembled yesterday to deliberate on the unsatisfactory state of affairs in the German colonies and to discuss subsidies proposed in the imparial budget. The appropriations for the Cameroons, heretofore 270,000 marks, will probably be reduced to 142,000. For Sout-liwest Africa the appropriation contemplated is 292,800 marks.

It is noteworthy that no regular budget has vet ben's established for East Africa, requiring no largest sum diedl. This item appears nuder the heading of non-recurring expenditures, and it is now believed that a separate budget is contemplated, because the imperial force has replaced the protective at Bagamoyo.

The Germans are beginning to realize that something is wrong with their colonial system, and that Dismarok's fattons declaration, " I am not on- of your colonial enthusiasts," had considerable hard sense at the back of it Too much money is spent by the German Government, the people say, for intangible results; there is too much bloodshed and too little commercial profit.
